Bi-monthly report

Ying Shi

2016.11.1

Summary of the past

- ICASSP 2017:Memory Visualization for Gated Recurrent Neural Networks in Speech Recognition

- Summary of ICASSP2017(Result of experiment)

- Some paper about visualization

- DNN TDNN and CNN baseline(th30 wsj)

- ML-book

Work strategy for the next bi-month

- Complete ML-book
- visualization(DNN,TDNN,CNN,RNN)(New sight eg:Regularization Dropout...)
- Kazakh speech recogniation
- maybe some visualization work about joint training
- paper(not limited to visualization)

Thank you
