Bi-monthly Report

Xiangyu Zeng

2015.4.1

- 1. Did some experiments about DAE(from clean to clean and used bottleneck to extract feature as input of DNN, but not good)

- 2. Learned about the work of Rate Of Speech(ROS) and did some experiments about it, then wrote a technical report about ROS. A step further, a paper of ROS was submitted to NCMMSC. At last, did some additional experiments and wrote Experiment part of paper for InterSpeech (Thanks to Teacher Wang, Yinshi, Zhiyong and everyone else)
