Bimonthly Report

Zhiyuan Tang, Speech Research Group

May 9, 2017

Goals in the next two months – Jan. 4, 2017

- Joint training (speech+language): full experiments on new databases
- Joint training (spk+language): full experiments
- End-to-end SRE: at least a running system
- Challenge on Replay detection: complete
- Mixlingual review: at least a TRP
- Multi-lingual ASR: more databases/baselines

1. Systematic review/baseline
2. Full experiments
3. Technical report
4. Conference paper
5. Journal paper

Goals in the last four months

- Joint training (speech+language): -> LID, 1 paper for Interspeech, 1 TRP for TASLP

- Joint training (spk+language): hold on

- End-to-end SRE: -> deep feature learning for SRE, 1 paper for Interspeech

- Challenge on Replay detection: 1 paper for Interspeech

- Mixlingual review: hold on

- Multi-lingual ASR: Kazakh ASR system, in progress

Goals in the next two months

- Joint training (speech+language): hold on

- Kalid book writing: at least 4 chapters

- Joint training (spk+language): hold on

- deep feature learning for SRE: 1 paper for TASLP

- Mixlingual review: hold on

- Multi-lingual ASR: online Kazakh ASR system

- Sparsity in DL: a basic idea and experiments

- AP17: OLR special session, several papers

1. Systematic review/baseline
2. Full experiments
3. Technical report
4. Conference paper
5. Journal paper
